DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1- 5, 7, 8, 9, 10, 12, 21, 22, and 23 are rejected under 35 U.S.C. 102(a) as being anticipated by Seals et al (US 6,071,628). Please refer to the previous office action for the text of the rejection.

Allowable Subject Matter

Claims 6 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's declaration has overcome the rejection over Freling '124.

Applicant's arguments filed October 7, 2003 regarding the rejection over Seals '628 have been fully considered but they are not persuasive. The declaration and arguments offer no verifiable evidence that the article of Seals would not and/or cannot possess the characteristics of the instant claims. The declaration offers an opinion only with respect to Seals.

Regarding claims 3, 9, and 23, as the particles of Seals are hollow, they are considered voids.
